

Que. List all 6 phases of SDLC in order with one line about each.

Ans.

The 6 phases of the Software Development Life Cycle (SDLC) are:

- 1) **Requirement Analysis** – Gather and understand the customer's needs and project requirements.
- 2) **System Design** – Create the system architecture, database, and overall design.
- 3) **Development (Coding)** – Write the program code based on the design.
- 4) **Testing** – Check the software for bugs and verify that it works correctly.
- 5) **Deployment** – Release the software to users or the production environment.
- 6) **Maintenance** – Fix bugs, update features, and improve the software after deployment.

Que. Write 3 differences between Agile and Waterfall models.

Ans.

- **Waterfall** follows a fixed, step-by-step process, while **Agile** follows an iterative and flexible approach.
- **Waterfall** allows changes only with difficulty after development starts, while **Agile** easily accepts changes during the project.
- **Waterfall** delivers the complete product at the end, while **Agile** delivers the software in small, working increments (sprints).

Que. Name the 3 main Scrum roles and write one line about the responsibility of each.

Ans.

- **Product Owner** – Defines the product requirements, manages the product backlog, and prioritizes work based on business value.
- **Scrum Master** – Facilitates the Scrum process, removes obstacles, and helps the team follow Scrum practices.

- **Development Team** – Designs, develops, tests, and delivers a working product increment during each sprint.

Que. What is a Sprint in Scrum? Mention its typical duration.

Ans.

A **Sprint** is a fixed time period in Scrum during which the team completes and delivers a working part of the product.

Typical duration: 1 to 4 weeks (most commonly 2 weeks).

Que. What do these Jira board columns mean: To Do, In Progress, Done, Backlog?

Ans.

- **Backlog** – A list of all tasks, features, and bug fixes that are planned but not yet started.
- **To Do** – Tasks that are selected and ready to be worked on.
- **In Progress** – Tasks that are currently being worked on by the team.
- **Done** – Tasks that have been completed and finished successfully.
